Re: CC Docket 06-2/Waiver Request  
Date: 23 June 2004

This document requests a waiver for FRN 1115183.

The SLD rejected funding on the basis that the Form 471 application while sent twice prior to the deadline (electronically and via US mail), did not have a signature on block 6, item 34 until after the filing date.

I submitted the information well in advance of the deadline, but as a first-year principal did not have the option for electronic signature submission.

SLD notes in its own file this reason for granting a request on its website...<http://www.sl.universalservice.org/reference/AppealsSLDGuidelines.asp>

When the appeal provides documentation to correct an incorrect SLD assumption made because there was insufficient information in the application file about an issue. In general, PIA will contact the applicant and ask for all information necessary to make decisions about an application. If that contact does not occur, however, and funding is denied based on an incorrect assumption, the SLD will grant an appeal when the appellant points out the incorrect assumption and provides documentation about the issue that is consistent with information originally provided but also successfully resolves the ambiguity in the original file.

The lack of a signature was insufficient information for the SLD, and no contact was made to me to resolve the issue until after the deadline. For this reason, I would ask for a waiver.

You may reach me at the following numbers if you have questions:
